**Product Description**

SCG PP P750J is a random copolymer polypropylene resins which giving high clarity and contain anti-static agent, suitable for general propose product produced from injection molding process.

**Typical Application**

- Clear food container
- Clear household product
- Articles required high transparency

**Product Characteristics**

- High clarity
- High gloss
- Good impact resistance
- Food contact applicable

**International Compliance**

- U.S. FDA 21 CFR 177.1520
- Regulation(EU) No.10/2011
- Directive 94/62/EC
- Directive 2002/95/EC (RoHS)
- EN 71 part 3

**Physical Properties**

Note:
- Conversion factor for changing unit from kg/cm² to MPa is divided by 10.20
- The given values are typical value measured on the product. Values herein are not to be constructed as a product specification.

**Processing Guidelines**

The actual processing conditions depend on each injection machine, product size, mold design and environment. Recommended processing conditions:
Melt temperature: 220-250°C Mold
Pressure: Injection 40-80%
Temperature: 25-70°C
Injection speed: Fast
Packing and Holding 30-60%
Back 10% of Max Pressure
Screw speed 40-70 rpm

The printing should be processed within 2 weeks after injection.

**Product Technical Assistance**
For technical assistance or further information on this product or any other SCG Chemicals' products contact your SCG Chemicals technical service engineer at the address or telephone number as specified below.

**Product Available Form**

- Pellet

**Product Packaging**

- 25 kg loose bag
- 25 kg stretch wrap palletized
- 750 kg big bag
- Seabulk container

**Storage**

- Store in original container in tidy according to the manual of Handling and Storage from Thai Polyethylene Company Limited/ Thai Polypropylene Company Limited.
- Product(s) should be stored in dry and dust free location at temperature below 50°C and protected from direct sunlight and/or heat, well-ventilated area, away from incompatible materials and food and drink, as this may lead to quality deterioration, which results in odour generation and colour changes and can have negative effects on the physical properties of this product.
- Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.
- The storage area should be stable and not be slopped.

**Safety**

- The product is not classified as a hazardous material.
- Please see our Safety Data Sheet for details on various aspects of safety, recovery, and disposal of the products; for more information, contact your SCG Plastics/SCG Performance Chemicals technical service.

**Recycling**

- The product is suitable for recycling using modern methods of shredding and cleaning. In-house production waste should be kept clean to facilitate direct recycling.
• Please see our Safety Data sheet for details on various aspects of safety, recovery and disposal of the products; for more information, contact your SCG Plastics/SCG Performance Chemicals technical service.
